Class Task 2.1 – Client and Server-Side Scripts

- Look at the range of websites given to you.
- For each one, identify as many examples of client and server-side scripting as you can. Some been given to you as an example.
- Focus on just the homepage for each site. This has also been given to you as a offline file.
- Discuss your how these features enhance the website the group.
- **Time allowed: 25 minutes**
